EXPERIENCE

Full Stack Developer Intern | Codec Technologies Pvt. Ltd. (Hybrid, Pan India)

Apr 2026 - Aug 2026

- Completed a 4-month AICTE & ICAC approved Full Stack Developer internship in partnership with Google for Education, collaborating with a distributed team across 27+ countries.
- Built and maintained scalable web applications using React.js, Node.js, Express.js, MySQL, and PostgreSQL, applying Git, GitHub, and Docker best practices within an Agile workflow.
- Strengthened problem-solving and cross-functional collaboration while working directly with project supervisors and mentors.

PROJECTS

TrainTrackPro - Full Stack Railway Tracking & Booking System

- Designed and built a production-grade train tracking and booking platform modeled on IRCTC, with a React/Vite/Tailwind CSS frontend and a Node.js/Express/Prisma backend.
- Integrated a Python FastAPI RAG microservice (LangChain, Sentence Transformers, Google Gemini API) with a polyglot PostgreSQL + MongoDB data layer, fully containerized via Docker Compose and Nginx.

AI Agent for Semester Exam Preparation

- Built an AI-powered study assistant using the Google Gemini API that answers student questions, summarizes topics, and auto-generates practice questions.
- Applied AI Tools, Data Science fundamentals, and Web Development skills to deliver a practical, student-facing solution.

Book Data Web Scraping & Analysis

- Built an end-to-end data pipeline that scrapes book titles, prices, and ratings using Python, BeautifulSoup, and Requests, then analyzes pricing trends with Pandas/NumPy and visualizes them with Matplotlib/Seaborn.
- Applied sentiment analysis on book reviews using TextBlob and VADER, classifying 57.1% of reviews as positive and 42.9% as negative; published full code, data, and charts on GitHub.

Inventory Management System with Sales Tracking

- Developed a system to efficiently manage stock levels and track sales operations, applying core data handling and logic-building principles.

OPEN SOURCE & COMMUNITY

- Contributor, Elite Coders Summer of Code (ECSoc) 2026 Cohort - collaborating on open-source software engineering projects.
